

CONTROL POINT_X

1. Take a photo of your team next to this control point, so that the red and white symbol of the point could be seen in the photo with you.
2. Each team member must be visible in this one photo.
3. Save the photo in your tablet as “point_X_number” – where instead of the word “number” should be the number of your group.
4. In the control card write only the letter **X** with an appropriate coloured pencil.
